BOVRIL ISN'T DEAR,

in fact, value for value, it is one of the cheapes drinks and one of the most economical foods that can be obtained. A cup of hot Boyril costs less than a drink of whisky, and while giving a more genuine and lasting, warmth than the latter, contains, in addition, nutritive principles of beef worth many times its cost.

Old fashioned beef teas and meat extracts, whether known as such, or disguised under more pretentious modern names contain none the cheapest.

BOVRIL AT THE FRONT.

Bovril has played such a conspicuous part in South Africa that it forms no inconsiderable feature of the story. The "Lancet " has had frequent references to Boyril in the reports of the officers of the Royal Army Medical Corps. Nearly every newspaper correspondent has had to refer to Boyril to make his story complete. Rudyard Kipling and Boden-Powell have written their Bovril stories. Over 500 British hospitals and similar public institutions use and prescribe Bovril, not beef tea, but

The reason is not far to seek. Boyril is a of the NUTRITIVE properties of beef. Baron nourisher as well as a stimulant. It contains Liebig himself admitted this fact; there is not the albumen and fibrine, the sustaining propera doctor to-day disputes it. Used as a nourish- ties of the beer. It is this fact, together with ment Meat Extract is probably the most its absolute purity, that commends Boyril to expensive article one can buy. Bovril one of physicians and scientists, and proves in practice what it demonstrates in analysis.

NOTES AND COMMENTS.

The Water Question.

One would naturally imagine that after the torrents of rain to which we have been treated of late that all inhabitants in the Colony would be enjoying a full supply of water, but such is not the case. We have heard numerous complaints from some districts to the effect that certain houses are not getting a drop of water while others are enjoying a full supply. Surely there must be a screw loose somewhere, and the Government cannot be attending to the water supply question with that ardour that the message of the Officer Administering the Government, which we published the other day, would lead one to believe. What is the cause of this great discrimination shown in the supply of water? Has some underling got a grudge against certain districts and resolved to keep them wateriess. or has the Water Authority lost the plan of the mains so that it is impossible to find the cocks for turning on the water? There is something very radically wrong somewhere or other and the sooner it is looked to the better. The manner in which our water supply is mismanaged is a disgrace to any civilized settlement, and would ruin a water. company in a week

#### DISTRICT WATCHMEN IN HONGKONG.

The Regis rar General, in his report says :---The District Watchmen were instrumental in bringing 175 cases before the Police Magistrate, and the" Committee is again indebted to the Chinese newspapers-the Tsun Wan Yat Po and the Wai San Yat Po-for continuing to publish weekly lists of these cases for the information of subscribers. The contributions to the Fund for the year were \$12,647.96, as. compared with \$10,598,29 in 1000. The expenditure was \$12,697.44, at compared with \$12,804.12 in the preceding year. The balance to the credit of the Fund on the 31st December was \$6,970.71. Although the pay of the District Watchmen was increased in 1897, it is found that the present rate of pay is insufficient to attract or retain the services of good men. In a Force of 70 men there were 8 dismissals and 11 resignations in the year. A contract has been entered into for the building of the Central Watchhouse on the Taipingshan Resumption Area at a cost \$412,000; the building is to be completed by the 31st. July next. Three vacancies, in the District Watchmen Committee have been caused by the resignation of Mr. Wei A Yuk, and deaths of Mr. Ip Chuk-kai aud Mr. Tsoi Tsz-mei, all three members of the Committee since its foundation in 1891. The vacancies have been filled by the appointment of Mr. Chau Tung-shang, Mr. U. Hoich'au and Mr. Lau Chu-Pak.

#### QUARANTINE.

The Consul General for the Netherlands courteously informs us that the Governor General of Netherlands India has decreed that all ships or vessels arriving from Canton or having called at that port are subject in Netherlands India to a quarantine of ten days from the date of departure from that port or since the last case of plague on board. Importation is temporarily prohibited of animal refuse, claws and hoofs, animal or human hair and bristles, hides which are untanned and which are salted or cured with arsenic, raw wool, and rags, bags or sacks which have already been used, coming from Canton or transhipped at that of change of residence.

### CANTON NOTES.

(From Our Own Correspondent). CANTON, May 23rd. THE STEAM LAUNCH STRIKE.

Most of the launches have been put back on their old runs. In this instance the prompt action of the officials put an end to what threatened to be a very serious strike and one which would bave seriously interfered with business in south China. I understand that some of the soldiers doing guard duty on the boats abused some of the passengers and put others in irons because they refused to pay the extra sums demanded. It is also a fact that a well known Chinaman, who acts as deputy for several of the officials because he speaks English well, was very active in bringing about the strike and would have succeeded in making it universal had not the U. S. Consul interferred. To tie up all the launches would paralize trade in this province.

This dread disease continues to increase in the city. The K'i Ha, or Bannermen district, is much the worst. The plague is spreading rapidly among them. This part of the city is the dirtiest-which will account for the many cases among Bannerman.

In the country around Canton the plague has been bad. Fat Shan comes easily first. But numbers of villages have been visited and the death rate has been high.

A NASTY RUMOUR. There may be no truth in it but it comes from a source that should be reliable. In fac I am inclined to believe that it may be true It is this. The Hongkong Government has approached the Hongkong and Canton, S.S. companies with a view to making an arrangement by which plague patients may be sent to Canton, or out of Hongkong, After thinking of all the ways the Hongkong Government has tried to deal with plague it does not seem that this is very far from the usual course per sued. To some of us a good many things suggested or attempted for dealing with plague have appeared ridiculous. But this is the worst off all. To send plague patients to their homes in the country seems little less than criminality It is true now that hundreds have been carried off by plague in different villages because some plague infected person went back to his village. It can hardly be possible that the government will countenance anything like this. If there is no truth in this rumour it should be contra dicted at once. It is certainly believed by many persons.

#### CHINESE AND PHILIPPINES.

LETTER OF PRINCE CHING TO CONGER

A dispatch written by Prince Ching calls attention to compaints received from Chinese that they were being excluded from the Philippines and says:

"I find on examination that the Philippines are not far from China, and that from the time of the Ming dynasty, which preceded the present, down to to-day a large number of emigrants have gone there from Fukien and the two Kuangs, amounting to 100,000, more or less, and that it is very difficult to put a stop to the coming and going of their families, fellowvillagers and relations. These, emigrants were formerly ill treated and harassed by the Spanish Government, but they were never forbidden to land or harshly driven back to China.

"Your honourable country has usually the reputation of being lenient, and at present your relations with China are especially friendly. There are places to which the restrictions agreed upon in past treaties apply, but, while we are hoping that these restrictions may be entirely abrogated, there has never been any treaty applying restrictions to these islands. If no distinction is to be made between laborers and merchants, and the severe regulations are to be applied to that place also and to be subjected to these harsh restrictions, I fear the 1075c] good reputation of your honorable country will hardly be able to escape injury."

Prince Ching concludes by asking Minister Conger to transmit the complaint to Washing-

#### BOMBAY MILLS AND CHINA.

At an essentially business-like meeting of the [57d] Bombay Mill-owners' Assciation held in the early part of the month, the Chariman, Mr. J. R. Greaves, congratulated the members on the increasingly cheerful prospects of the industry in that city. According to Shanghai advices, though the English cotton trade with China is slack, the river ports are taking freely 1073c] of Indian yarn at enhanced prices, and there is every probability of the demand continuing. port. Also it is temporarily prohibited to import As Mr. Greaves showed, the manufacture of from Canton into Netherlands India tapestry yarns and cloth was on a more extensive scale and used embroideries unless they are trans- during the past year than in its predecessor, ported as personal baggage or in consequence and at one period the margin between the cost of raw cotton and the value of yarn was wide enough to satisfy mill-owners. The width of margin was not consistently maintained, how ever, owing to cotton becoming dearer and China exchanges falling. Nevertheless, the year's export from Bombay to China beat the record with the sole exception of the year 1899. The Chairman admitted that doubt arose whether the presence of

> PLENTY OF CARGOES OF INDIAN YARN, and the knowledge of more to come, do not militate against the prices obtained, and he looks forward to an increased demand to raise prices. Indian yarns are working their way up the Yangstze valley very steadily. As Mr. Greaves pointed out, the great factor at present disturbing our Indian yarn trade with China is the constantly declining value of the dollar and tael, owing to the continued fall in the price of silver, which has this week declined to 23 7. 16. He remarked that it would be interesting to know to what extent silver could fall, as under present conditions for finance for the bulk of the trade every decline adversely affects our rupee values, though conversely any rise would appreciate our rupce equivalents. The previous lowest point touched by silver was recorded in August 1897, when the sterling price was 23 3-4 and the Shanghai tael rate. Telegraphic Transfers on India 171. To-day's price of silver is 23 7.8 and the Shanghai tael rate is 172 1-2. China does not desire to follow the example of other countries in placing its

NOMINAL COINAGE ON A GOLD BASIS. Erom the Chinese point of view, as he observed, there is no occessity for any alteration, as the exports and imports are said to approximately balance, if the overland trade is added to the seaborne traffic. Illustrative of the effect of the fall in silver, he mentioned that to-day the price of 20's Indian yarn is 92 taels against an average value for many years past of 63 taels. So the present off-take of Indian yarns at the high price to the Chinaman as expressed in taels, is a source of gratification to merchants and d spinners. During the year, it is gratifying to note, that the Association has been in search of fresh fields and pastures new, and has made a serious endeavour to procure and render available to members exact information about the requirements of certain markets in which Bomhay goods appear to the committee to be less | well-known than they ought to be. Bombay | S mill-owners, as a body, remarks the report, are faitly well informed regarding the extent and | nature of the demand in the Further East, but there is some uncertainty as to what could be done in the considerable markets of Turkey in Asia and what is left undone in those of East

PROGRAMMES,

CHIEF DETECTIVE INSPECTOR HAN-SON left for home on a well-carned holiday by. the English mail boat, Ballagraf, to-day, He had an enthusiastic send off from members of the force.

DESTRUCTION OF TREES having taken place at Tai Hang, and its neighbourhood, the villagers have to pay an additional rate of four per cent, per annum, to take effect from the ist. July next.

THE REVENUE COLLECTED during the year amounted to \$127,566.16, as against \$132,729.63 collected in 1900. The expenditure during the same period was \$16,429.62 as against \$13,058,53.

THE FINANCIAL POSITION of the Tung Wa Hospital is now receiving the serious attention of the Chinese. For some years the expenditure has exceeded the ordinary revenue, says the Registrar-General, and it is generally recognised that the time has come to re-establish the hospital on a sound financial

LABOUR DISPUTES IN HONGKONG The Registrar General reports that there were several labour disputes during the past year though none forced itself on public attention In each case that came to his notice the the object of the enquiries might have been misunderstood.

LEAVING WITHOUT NOTICE :-- Mr. Max Micheal, sharebroker, charged his office coolie this morning with leaving his service without giving notice. It appears that in April last the complainant advanced him \$6 on his month's wages and the defendant then took French leave. The matter was reported to the police and the man was arrested, and this morning was fined \$7 or 14 days.

Thursday, the 5th day of June, 1902, at 4 p.m | works appeared to have been run proceedings.

COLONIALS IN LONDON: -- In reference to the club for Colonials visiting London thi summer, for which No. 32, Dover-street, has been taken, prospective members may take a deeper interest in the house if they know of it associations with Lord Beaconsfield, bette known to Grater Britain as Disraeli. He wa a frequent visitor at the house, and many a plot was said to have been hatched at the grea round table at which a certain coterie of hi most faithful followers used often to assemble.

able results have been attained in the explorations at Abydos during the past year. The consecutive order of seventeen kings has been established and the foundation of Egyptian and Fuel Economizer, which will make history settled on a firm basis. The historic chatacter of King Mena has been demonstrated and a long line of dozen kings, after him has been fixed. The explorers have seen and handled the gold, crystal and ivory with his name and graving, and even the kings proceeding him are now better known than half the Saxon kings of England.

#### COWARDLY ASSAULT ON A JAPANESE WOMAN.

A STRANCE STORY. A coloured man, by the name of Franc de Cruiz, who has had several conviction against him faced the Magistrate thi morning to answer a charge of fighting in a public street and also of assaulting married Japanese woman in Queen's Road East. It appears that Cruiz knocked at the woman's door on Thursday morning and asked for a cup of tea. She said that in the absence of her husband she could not receive any one in the house and Cruiz burst the door and went into her cubicle to have a chat with her, where upon she turned him out of the house and he assaulted her. In his desence, Cruiz made long statement that the woman had been hi sweetheart for the last to months or so, and he used to call on her every morning when the husband was out to have a cup of coffee On the morning in question, when she refused, to let him in, he knew there wa another man in the house so he broke th door and went in. A four year old girl, the daughter, of the complainant, whom Crui claimed as his wilness, was brought into the Court and examined. The poor little thing could not understand a word that was, put to her, and Mr. Kemp said he could not take her evidence, she being too young.

The woman living next door to the the complainant, corroborated as to what took place on the morning in question and the magistrate fined defendant, on the first charge, \$3 or 1 days, and on the second \$75, or, a months with hard labour. He paid 33, and was sent to prison for 2 months as he could not afford the remain. der of the fine.

OHINA LIGHT AND POWER CO., LTD.

FIRST ANNUAL MEETING

At the offices of Messrs. Shewan Tomes & Co., this morning the first annual meeting was held of the China Light and Power Co., Ltd. Mr. Robert Shewan presided, and there were also present Messrs. J. H. Lewis, D. E. Brown and Fung Wa Chun.

The Chairman said :- Gentlemen, as the Reports and Accounts have been printed and in your hands for some time past we will now take them as read. The result of the year's work at Canton is a stortage of \$7,378 23 and, taking all things into consideration, and the difficulties we have had to encounter there, I do not think this is at all unsatisfactory. Those who are familiar with the management, by Chinese, of Industrial concerns like this, can nione form some idea of the state of utter neglect and confusion that we found the place in when we took it over, and much time and money had to be spent before we could get things into anything like proper working order. When this was done our next care was to add another engine and generator to be a reserve in case of accident, and also another new employes obtained a rise of wages. No attempt | boiler. The old Company had only one the space, we have bought a small piece of ground, about 25 feet by 75 feet near the Station, which will be very useful to us." All these

CHANGES AND IMPROVEMENTS took time, and we have to thank our customer's THE LEGISLATIVE COUNCIL: A at Canton for the patience with which they Gazette notification states that a meeting of have borne frequent break-downs, which were His Majesty's Justices of the Peace will be almost invariably the result of the careless held in St. Andrew's Hall at the City Hall on | and incompetent, manner in which the for the purpose of nominating a Justice as and the former proprietors. But in spite of all, Unofficial Membet of the Legislative Council business was steadily pushed in the direction during the absence on leave of the Honourable. of new customers and, to give, you some idea C. P. Chater, C.M.G. Official Justices of the of our progresss, I may tell you that as against Peace are not entitled to take part in these | 225 Chinese and 460 foreign lamps on the 28th of February last year we had 1.240 Chinese and 1,150 foreign lamps on the 28th of February this year. We are now covering our expenditure at Canton and, as our output increases there, our expenses will diminish in proportion and leave a good margin of profit. But it is only by closely studying our expenditure that this result can be reached. Our coal consumption, to mention one item as an instance, has been excessive, and this was to be expected, as at first the Station was running with a very light and wasteful load, there was tonly one boiler which could not be kept properly cleaned and, EXPLORATIONS IN EGYPT:-Remark. finally, the storage for coal was so had that we could not prevent it from being stolen. A these points are being attended to and remedied, and we have now added a Condenser

A MATERIAL SAVING IN COAL.

Besides the electric lighting machinery at the Station, we have a large pump for forcing water from the river through a line of water mains for fire extinguishing purposes in the City of Canton. As the danger of fire is greatly feared in Canton we hope, in time, to increase this service of water mains and derive a steady income from them, the cost working the pump not being very great. Of course, there have been the usual difficulties in starting a plant where Chinese, who have to be newly trained for the work, are employed, aggravated in this case by the situation of the Station in the midst of Chinese and remote from any foreign influence, and much credit is due to our Manager, Mr. Belden, for the patience and determination with which he faced these obstacles and set himself to teach and train the raw native workmen. As a general rule, the Chinese do not have a complete | sir, the guard's gone fishing-there's a shoal of installation made in any house or shop, but barracoutta all round the Mordialloc pier." have a light put in where they would otherwise | "And who the deuce are you?" the officer askburn a Kerosene lamp all night. The present | ed in wrath. "Please, sir, I'm the prisoner." installations average 3-10 Candle power lamps each, but as consumers become more accustomed to the light, and as we prove that it is more to be depended upon, we feel sure our customers will become more generous in their installations. No installation has yet been that a rifle ball would glance from the skin of made in any of the Official Yamens as they are remote from our present mains, but as lines are extended to within reach of the Yamens, there is every probability that the officials will connection with Florida alligators, here is an take the opportunity of having electric light installed,-the ever constant dread of fire being, a great factor in our favor. So much for Canton, where I think we have

SEEN THE WORST OF OUR TROUBLES. As for Kowloon, we have been in the hands of the Contractor, and the work has dragged along and not been done, as only the Chinese third hunter wrote: "Shot the biggest alligator contractor knows how not to do it.; Every kind ever killed in Florida. In the stomach were of threat and entreaty has been used to urge on found the remains of a steam launch, a lot of the work, but to little purpose, and it is still a of melted ice, proving that it existed during the case of hope deferred and excuse after excuse, glacial period!" for more mon not being employed. However, the end is approaching, and we have some hopes that in 3 months' time we shall have the machin- International Sydney Referce: "During the ery allinstalled and the works running. Pretty supply with the present installation, and shall next be thinking of extending the works. There is nothing in the accounts that I think

requires any explanation, but before moving their adoption I shall be pleased to answer any questions you may wish to ask.

There being no questions the Chairman proposed, and Mr. J. H. Lewis seconded, that the report and accounts, as presented, be adopted and passed.

The motion was carried.

· · · CONSULTING COMMITTEE. On the proposition of Mr. D. E. Brown. seconded by Mr. Fung Wa Chun, it was agreed that Mr. C. P. Chater and Mr. J. H. Lewis, in place of Mr. H. P. White, resigned, be elected Consulting Committee for the present year.

AUDITORS. Mr. Fung Wa Chun proposed, and Mr. D. E. Brown seconded that Messrs. T. Arnold and W. H. Potts be re-elected auditors.

The Chairman :- That is all the business, gentlemen. I thank you for your attendance.

WISE AND OTHERWISE.

Enquirer writes, to ask if Question, the three golden balls hung over the stern of H.M.S. > Beach- Hongkong appears to have recombers. ceived a fresh consignment of beachcombers, Mr. Editor. At least they are a new lot in one way, but in another they are neither new nor fresh, for a more dirry, ginsodden set of rascals it would be difficult to find in a day's march. Beachcomber's Corner, near the outside bar of the Hongkong Botel, is a favourite haunt of these foul birds, and two or three of them are generally to be seen leaning lazily against, the pillars of the Hotel and scratching themselves while waiting the advent of any person who looks as though he might be approached for the price of a drink. I had one of these gentlemen call upon me last night. was sitting writing in my dining room when the door opened and a grey coated, hoary headed, bibulous nosed old sinner walked in without as much as knocking. He seemed somewhat surprised to see me and began, "I've just come over ere" I chipped in with ! "Then just get out of it again," but he continued. " I've come over 'ere to go aboard ship." Here I interrupted him and after politely telling him that my house didn't answerthat description and that the door was behind him, hunted him out, Now I should like to know, Mr. Editor, what would happen if one of these loafers suddefily walked in on a lady as this one did on me. I should advise all residents to keep fierce dogs and train them to attack scarecrows. These beachcombers are becoming an infernal nuisance, and very often get money from ladies whose husbands are away at business and who are afraid to refuse them. Why can't such undesirables be collected by the Police and exposed in the stocks? They don't want work and are of no use to anyone. When we are more civilized they will doubtless be treated in a lethal chamber, or cast into the incinerator with other useless garbage.

The Hongkong volunteer can be Casual. pretty casual when he likes, but his Australian confrere can apparently beat him. The Australasian tells a story of an officer doing grand rounds, who called at a post and found outside the tent only a solitary soldier, who was taking matters easily with both hands in his pockets. "Why don't the guard turn out?" the officer asked. "Please,

## THE NEW FRENCH REMEDY.

This successful and highly popular remedy, semployed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1, in a few days only, removes all discharges from the urinary organs, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well-tried remedies have been powerless.

THERAPION No. 2, for impurity of the blood, scurvy, pimples, spots, blotches, pains and swellings of the joints, secondary symptoms, disease of the bones, sore throat, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of the sufferer's teeth and ruin of health. This preparation purifies the whole system through the blood, and throughly eliminates every poisonous matter from the

THERAPION No. 3, for nervous exhaustion waste of vitality, and all the distressing consequences arising from early error, excess, residence in hot, unhealthy climates, &c. I posseses surprising power in restoring strength and vigour to the debilitated.

THERAPION may be procured of the print cipal Chemists and Merchants throughout the world. Price in England 2/9 and 4/6. In ordering, the purchaser should state which of the three numbers he requires, and observe that the word "THERAPION" appears on the Government, Stamp (in white letters on a red ground) affixed to every genuine package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery.

OF COMMERCE.

At a Special Meeting of the General Committee of the Hongkong General Chamber of Commerce, held in the Chamber Room, City Hall, on Wednesday, the 21st May, 1002, at man), Messrs. A. Haupt, N. A. Siebs, H. E. Tomkins, R. C. Wilcox, and A. R. Lowe (Secretary).

MEMBERS OF COMMITTEE. The Vice-Chairman said that it was thought advisable to bring the Committee up to its full strength as soon as possible, and he proposed that the places vacated by Sir Thomas Jackson, and Hon. J. J. Bell Irving on their leaving the Colony should be offered to Messrs, J. R. M. Smith and C. W. Dickson. Mr. Wilcox seconded this proposition and

was carried unanimously. NEW CHAIRMAN. The Vice-Chairman said that as the committee was so depleted in numbers he would

suggest the election of a Chairman and the new members of the correspondence Committee be deferred until next Meeting. PILOTS LICENCES,

It was reported that that the Colonial Secretary had written on the 11th instant stating that the Government would be prepared to conside any scheme which the Chamber put forward with a view to the granting of licences to pilots, and the Chairman said this matter should be pushed forward without delay, and suggested the best way to carry it into effect would be to form a Sub-Committee to report thereon.

The Vice-Chairman proposed, Mr. Tomkins seconded, and it was carried unanimously that Messrs. A. Haupt, E. A. Hewett, and W. Poate be invited to form the Sub-Committee.

This was all the business of general interest before the meeting.

#### BIRTHS AND DEATHS IN HONGKONG

The Registrar General reports that during last year the births among the British and Foreign Community numbered 240, as compared with 261 in 1900; of this number, 124 wer males and 116 females. The births registered as having occurred in the Chinese Community were 848, as against 678 in 1900. The subjoined Table shows the number of Births of Chines registered during the years 1891-1901 inclu-

Year.	Number of Births.	Year.	Number of Births.
1891	1,529		1,125

1894	1,250		678
1895	1,195	1901	848
1896	978		

The decrease is very striking, and on the suggestion of the Sanitary Board directions have been given by the Government for special efforts to be made to secure the registration of all births. During the last eleven years three, Censuses of the Colony have been taken and the following information was obtained regarding the number of females and the number of families in the Chinese Community;--1891. 1897. 1901.

Number of females over 15 in the Colony ...40,492. 46,247 -51,489.

The number of deaths among the Chinese was 6,670, as compared with 6,471 in 1900. 1,513 died from Plague. 367 of the deaths among the British and Foreign Community and 3,043 among the Chinese were certified to by a registered Medical Practitioner or were the subject of a Coroner's Enquiry. #### THE REGISTRAR GENERAL'S REPORT

The report of the Registrar General for the year 1901 is published in the Government Gazette, and from it we take the following :-

REVENUE AND EXPENDITURE. The revenue collected during the year amounted to \$127,566.16, as against \$132,729.63 collected in 1900. The decrease is due to the large falling off in the number of certificates of identity issued to Chinese entering the United States. The revenue derived from this spurce is 59,350 less than last year. On the other hand, the revenue from cargo-boat licences shows an increase of \$1,481 and that from markets an increase of \$1,361. The expenditure during the year was \$16,429.62; compared with \$13,058.53, in 1900. The increase is caused by the separation of the posts of Registrar General and Colonial Secretary. It is now ten years since the Registrar-General's first annual report on the work of his department, and the short comparison which is given below between the years 1891 and 1901 will not be out of place.

1891. 1901. Revenue from markets ...... 53,415- 84,718. Revenue from boat licences... 11,804 23,832 Revenue from hawkers ...... 4,341 Expenditure..... 22,766 Hawkers' licences ......... 2,171 11,098. Other licences, certificates, &c. 4,599 7,772 Permits ..... 575 Female emigrants examined .... 9,762 Women and girls detained 330 Marriages The revenue derived from

THE LEASE OF MARKET PREMISES shews an increase of \$31,300, More than half of this comes from the Central Market, but the rents of all the markets have advanced naturally; and inevitably with the increase of population. As a rule, market premises are let by sealed tender, and any other method, would. I think, prove unsatisfactory. It is certain that whenever the rent paid to the Government falls much below the rack-rent, the lessee sublets the premises and pockets the difference. Instances of this being done are always coming to light, but it is impossible to put a stop to the practice. The number of shops and stalls. occupied has risen from 634; to 824. The Taipingshan Market was closed in 1894 and one at Taikoktsui was opened in 1899. The erection of temporary markets on the Praya Reclamation has been approved and will relieve the pressure on the Salyingpun and Western Markets, and the extension of the Wanchai Market will most probably prove remunerative. Exceptional circumstances account for the small revenue derived from

HAWKERS' LICENCES in 1891, but the figures since the year 1894, in which the present system of paying the fees quarterly was reverted to, shew a steady and remarkable increase.

Year. Revenue. 1894 .....\$ 4.497 1896 ..... 1899 ..... 9,538 1900 1901 ..... 10,990 WOMEN: AND GIRLS PROTECTION

ORDINANCE. The present financial position of the Po Leung Kuk Society reflects credit on all concerned. The subscriptions for the year amounted to \$6,823.50, and the total revenue to \$7,873.50. The expenditure was \$7,656.31. There were 50 persons in the Po Leung Kuk on the 1st January, and 389 were admitted during the year. Of these, 187 were restored direct to parents or relatives or were sent to some Benevolent Society in China, 3 were adopted, 5 placed at school, and 50 were married Investigation into the cases of 116 shewed that no action was desirable or necessary. The work entailed by investigation into so many cases is very onerous, and it is not infrequently tedious and disagrecable, but there has never been any difficulty in finding gentlemen willing to undertake the task. Thirty-eight girls, of whom 14 were eventually found again, were reported to the Society as missing in Hongkong, Three hundred and thirty-five women and girls were detained under Part II of Ordinance 9 of 1897, as compared with 298 in 1900.

Nine thousand seven hundred and sixty-two female passengers and boys were examined at the Harbour Office in 1901, as compared with 9,943 in the previous year. Ofthis number, 82 women were detained for enquiries, 73 of whom were found to have been persuaded to go abroad under false pretences. The usual arrange ments were made to restore them to their relatives and friends. Emigration to the Siraits Settlements was suspended for nearly lour months during the prevalence of plague in this.

CONTRACT CHINESE LABOUR IN BRITISH NORTH BORNEO. The accountions with the British North Borneo Government relative to the advance of wages made to coolies proceeding to British North Borneo have resulted in the following arrangement. In future, the cost of bringing the coolie to Hongkong, honsing him there, and providing him with a small outfit; will be reckoned as Sio. 35 will be handed to him on board the steamer before leaving and Sto wil be paid to him on his gning the contract on his arrival in Billish North Borneo, This secures the coolie Si San cash out of a nominal

# DRESSMAKING DEPARTMENT.

This section of our business is a new venture and has met with extraordinary success during the past 4 months.

All work cut and supervised by our dressmaker who, having had High Class Colonial and Home experience has attained the knowledge required to connect Style and Fashion with comfort in creating suitable toilets for Eastern wear.

We intend making this department a specialty and ladies will do well to give us a trial.

Our London and Parisienne buyers have Instructions to keep us up to date and supplied with all—the latest and most Fashionable Goods so that our patrons may be assured of procuring everything of the newest and best.

Ball Dresses, Bridal Gowns, Afternoon Costumes. Mourning orders executed at shortest possible Notice.

Space will not allow us to quote the thousands of articles stocked in this establishment but two words will convey all that is necessary viz GENERAL STORE. Do not fail to enquire for ANYTHING, you may want.

April 30th.
